We are continuing the Xamarin AsgardMobile transition as our first priority, and have added resources to our desktop team to ensure other needs continue to be well-supported.

We will continue to provide project progress updates through our regular customer Project Management meetings.

Mobile Application

All Platforms/Versions

Max Photo Size, Enhance to Match Main App

By customer request, we are enhancing the default photo size, for images captured on the mobile device (appearing in Comments/Photos, and in reports such as Billings, Work Order Details, etc.).

Desktop Application

Maintenance

Various Fixes / Changes

Small enhancements and fixes, in various areas of the system, arising from automated reporting of system performance and user experience. Affected areas include Scenarios, Staff On-Shift, Follow-Up, and IVR Task Code.

Break Time Calculation

We have corrected an issue, reported after the last publish, that putting a user on-break from the main app results in a negative break time.

IVR

We have migrated our IVR service to the cloud, and enhanced the functionality based on the current state of the Occupied Status API. These changes were necessary to support upcoming development/deployment of the Housekeeping Cleans functionality.

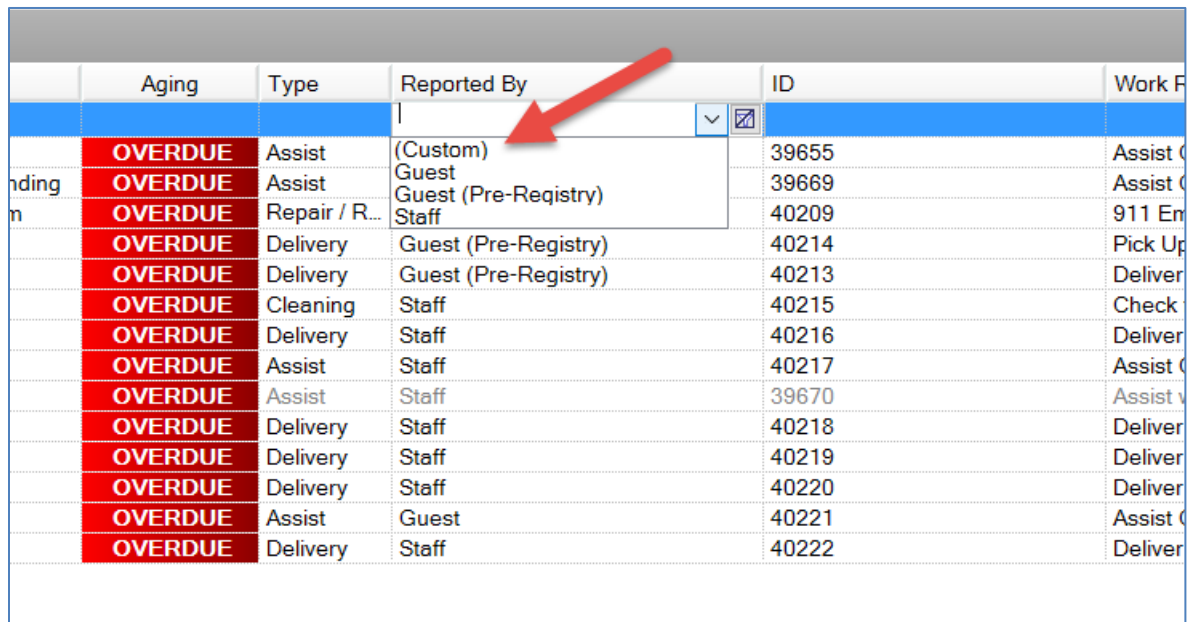

Optimize Unit, Owner Fields/Lists/Tables

In preparation for future enhancements, we have optimized these areas of the system for performance and data efficiency.

Standard Work Orders

Active/Follow-Up Screen, Enhance Reported By to be a Custom Selector

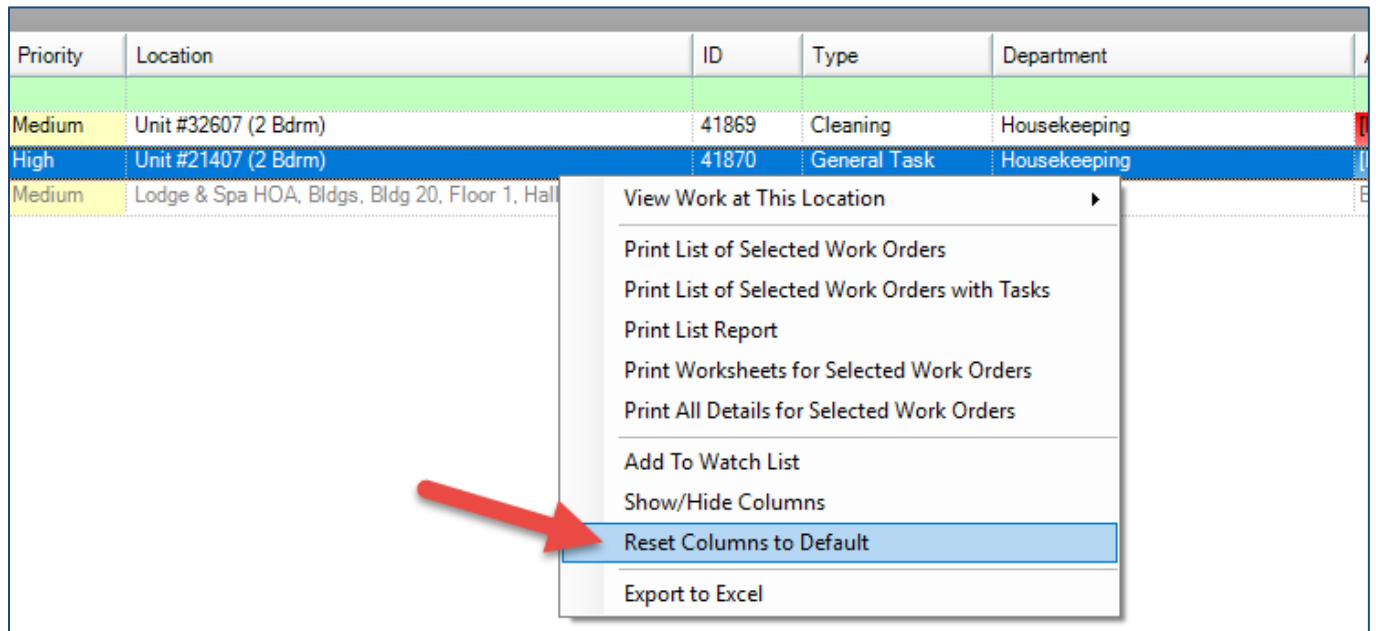

By customer request, we have enhanced the Reported By field selector to support a Custom entry. When selected, the user can select a combination of Reporters.

	Aging	Type	Reported By	ID	Work F
	OVERDUE	Assist	(Custom)	39655	Assist C
nding	OVERDUE	Assist	Guest	39669	Assist C
n	OVERDUE	Repair / R...	Guest (Pre-Registry)	40209	911 En

	OVERDUE	Delivery	Staff	40218	Deliver
	OVERDUE	Delivery	Staff	40219	Deliver
	OVERDUE	Delivery	Staff	40220	Deliver
	OVERDUE	Delivery	Staff	40221	Assist C
	OVERDUE	Assist	Guest	40221	Assist C
	OVERDUE	Delivery	Staff	40222	Deliver

Active/Follow-Up Screen, Make Default Screen Configuration More User-Friendly

The column display on the various active work order screens will now default in a more user-friendly order when a first time user logs in. The columns can still be dragged and dropped to your desired order at any time and reorganized to the default by right clicking anywhere on the grid and choosing Reset Columns to Default.

Priority	Location	ID	Type	Department
Medium	Unit #32607 (2 Bdrm)	41869	Cleaning	Housekeeping
High	Unit #21407 (2 Bdrm)	41870	General Task	Housekeeping
Medium	Lodge & Spa HOA, Bldgs, Bldg 20, Floor 1, Hall
