AsgardMobile v2.22.0 / Desktop Application v2.22.0

**KATANA**  
FACILITY MANAGEMENT

## Mobile Applications

### AsgardMobile 2.0

#### Maintenance/Performance/Errors

We made various enhancements and fixes, in several areas of the system, arising from user reports, automated reporting, and performance records/logs.

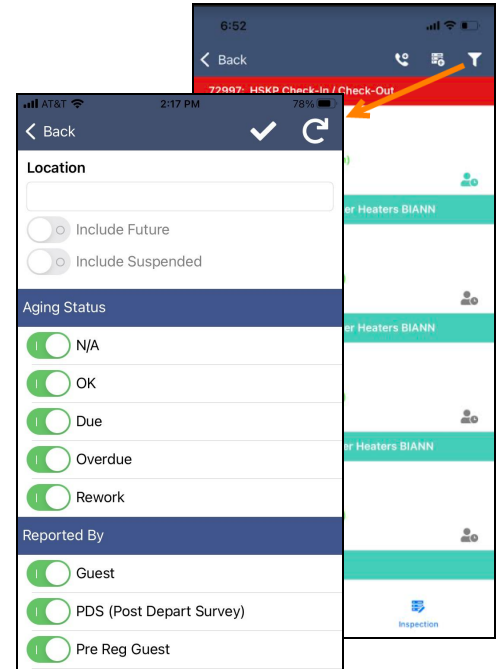

These changes include, but are not limited to:

- Notification Optimization
- Apple, Optimization of PM Completion Screen in Dark Mode
- Change Error text for better readability
- Optimize Log In screen
- Location Search, Optimize PM Tasks

#### My Work Orders Screen, New Filter Capabilities

By customer request, we have added filters to the My Work Order screen. Users can now filter by the following parameters to focus their work:

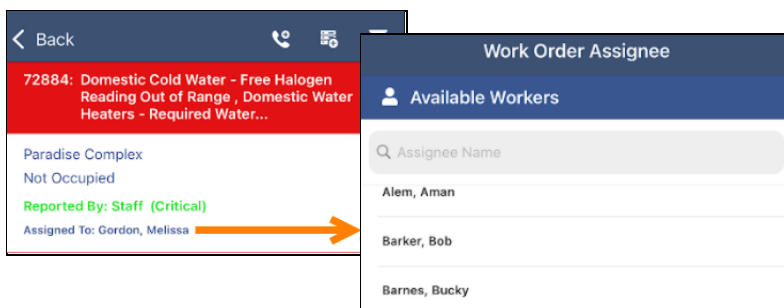

- Location Keyword
- Future or Suspended
- Aging Status
- Reported By

**Please Note:** Unlike the Dispatch screen, the My Work Order filter will reset when the user leaves the list to ensure that any new work orders that might have come in are immediately visible.

#### Dispatcher, Tap to Assign

For easier work order assignment/reassignment, users with Dispatcher access can now conveniently click on the Assigned To: field on the Work Order List to deploy the Assign screen

# Desktop Application

## Maintenance/Performance/Errors

We made various enhancements and fixes, in several areas of the system, arising from user reports, automated reporting, and performance records/logs.

These changes include, but are not limited to:

- Staff-on-Shift, Fix to View Permissions
- Assets & Reserves, Masterlog Column Header Spelling Fix
- Work Order, Labor, Only Factor Two Decimal Places
- RPR, Fix Justification Field Formatting
- Purchase Orders, Reinstate GL Code Field
- RPR, Search Screen Refactor

## Work Orders

### Add Reported By to Recently Completed Screen (All Super Types)

By user request, we have added the Reported By information to the Recently Completed screens. This will allow users to quickly assess the Staff v. Guest reported work trends on recent work.

## Assets & Reserves

### Account Details, Green Filter Bar Persist Through Refresh

When a user uses the Green Filter Bar in the Account Detail Screen, the filter will now persist if a change is made to the screen and refreshes.

### Scenarios, Copy Asset Description to Expense Description

When a new Scenario is created from Live data, any Asset Descriptions will copy over to the Description Tab in the new Expense Series in the Scenario. If an Expense Series has more than one Asset attached, all Descriptions will be included. Expense Series Description will copy from Scenario to Scenario as always.

### Account Details, Add Previous Occurrence to Expense Tab

By customer request, we have added the Previous Occurrence of an expense to the Expense Tab in Account Details. This addition will help identify if the item is being replaced within the expected cycle.

Status	Start	Previous Occurrence	Name	Inflation ...	Report Grouping	G/L C...	Asset Category
Not started	1/1/2020	1/1/2018	Lobby Decorations for Christmas Celebration	3.00			Common Area
Approved	1/1/2021	3/1/2021	Bench Replacement - Basketball Courts	3.00			Basketball Courts
Not started	1/1/2021	1/1/2020	Pressure Clean-Pool Deck-Courtyard Pool	3.00			Pool & Spa Equipment
Not started	1/1/2021	9/10/2021	Test For RPR	3.00			Roofing
Not started	1/15/2021	1/15/2019	Drone	3.00			Equipment
In progress	3/2/2021	2/25/2021	Unit Renovation: Appliances	3.00			Appliances

Not started	4/1/2021	4/1/2011	Vanity-72" Single Bowl Banjo-Bldg 22	3.00			

## Reserve Purchase Request

### Create Screen, Enhance Expense/Project Code Lookup

Users will now be able to filter the Expense list when creating an RPR by both Expense Name and Project Code.

The screenshot shows a software interface for creating a Reserve Purchase Request (RPR). At the top, there are fields for 'Account' (set to 'Asset Management Account') and 'Expense' (set to '[None]'). A 'Project Code' field is also visible. A search window is open, displaying a list of expenses with columns for 'Name And Date' and 'Project Code'. The search term 'ssw' is entered in the search box. The list includes items like 'Carpet-Bldg 24 (1/1/2018)', 'Microwave-Bldg 15 (10/1/2021)', and 'Television-RCA 32" w/remote-Bldg 30 (5/19/2021)'. A 'Find' button is located at the top right of the search window, and a 'Clear' button is at the bottom right.

Name And Date	Project Code
Carpet-Bldg 24 (1/1/2018)	SSW-014
▶ Microwave-Bldg 15 (10/1/2021)	SSW-015
Microwave-Bldg 17 (6/1/2021)	SSW-015
Microwave-Bldg 22 (4/1/2021)	SSW-015
SSW - Reserve Study (12/31/2021)	SSW-016
Television-RCA 32" w/remote-Bldg 30 (5/19/2021)	SSW-014
Television-RCA 32" w/remote-Bldg 31 (5/19/2021)	SSW-014
Television-RCA 32" w/remote-Bldg 32 (5/19/2021)	SSW-014
Television-RCA 52" w/remote-Bldg 30 (5/19/2021)	SSW-014
Television-RCA 52" w/remote-Bldg 31 (5/19/2021)	SSW-014
Television-RCA 52" w/remote-Bldg 32 (5/19/2021)	SSW-014
Unit Renovation: Appliances (3/2/2021)	SSW-015

### Trigger Warning when Request Exceeds Available Balance

As a safeguard, users will be prompted to contact their Asset Manager if an RPR exceeds the available balance on an approved Budgeted amount. Users will be able to save the RPR in draft mode until the RPR or Expense are adjusted, but will not be able to initiate approvals until the requested amount is within the available budget.

The screenshot shows an error dialog box with the title 'Cannot start approval process'. It contains a red 'X' icon and the following text: 'The approval process cannot be started due to the following restrictions: Total - The RPR exceeds the available balance - please contact your asset manager for assistance. Please correct and try again.' There is an 'OK' button at the bottom right of the dialog.
